The Opposition Platform—No. VII.

We have had time for looking at this by the Know-Nothing-American-Opposition convention in this city by the San Nicholas on the 22d of February, as a platform, but which will prove to be a scaffold for the erection of a goodly number of the bad *dicto* of Kentucky. We now come to the consideration of the seventh and last plinth in the monstrous fabrication, which is as follows:

7. It is an Extravagant, wasteful Party.

The conclusive proof of this lies in the fact that under its rule the annual expenditures have increased from less than twenty to more than eighty millions.

The single item of five millions spent in two Congressional terms for public printing, and the waste of six hundred thousand dollars annually in collecting the revenue, as stated in the report of even a Democratic committee, supersede the necessity of any detailed exposure of extra-

gence.

In the published letter of President Buchanan, before referred to, he complained that in 1852 the annual expenditure for public printing was "a sum of fifty million," and predicts that, "unless arrested by the strong arm of the Democracy," it will be increased to a scaffold for the erection of a goodly number of the bad *dicto* of Kentucky. We now come to the consideration of the seventh and last plinth in the monstrous fabrication, which is as follows:

7. It is an Extravagant, wasteful Party.

The conclusive proof of this lies in the fact that under its rule the annual expenditures have increased from less than twenty to more than eighty millions.

The single item of five millions spent in two Congressional terms for public printing, and the waste of six hundred thousand dollars annually in collecting the revenue, as stated in the report of even a Democratic committee, supersede the necessity of any detailed exposure of extra-

gence.

The Christian Union, a very able religious paper published in this city, and which, we take it, makes no part in politics, speaks of Mr. Holt:

Opposition to Joseph Holt, Esq., as Merchants General.—The occasions for making any inference in the Christian Union to political appointments will be so rare that it is not likely that our readers will be apt to find him in office, and he will be admitted on all sides, we cannot fail to trace back many of the errors of a system which has grown to be abused by the mere force of habit, and to apply the knife freely afterward. Possessing the knowledge of men, and of the art of making them, he will be a valuable addition to the firm.

Mr. Holt has all the qualities which fit him for this large responsibility, and will, doubtless, distinguish himself in the department which, though small, is of great importance.

Railroad Accident.

ABYSSINIA, March 21.—The accident which occurred to the carriage of the railroad at 11 o'clock, Friday night proved more serious than was at first thought. Heavy rains had washed the embankment, making a chasm one hundred and fifty feet wide, and fifty feet deep, into which the whole train, except the engine, consisting of twelve baggage cars, one second and two first-class cars, and one passenger car, tumbled, smashing to atoms. Four persons were instantly killed, and several others have since died of their injuries.

On account of a derangement of the telegraph wires between here and Hamilton, a full list of the killed and wounded cannot be obtained. The following are the names of the killed and wounded as far as known: Mrs. George Morgan, engineer, James A. Smith, brakeman, John W. Milne, brakeman; Davis Bozer, a German, of Marion, Ind.; Mrs. Jas Jacobson, Jonesport, Iowa, were instantly killed.

WOUNDED.—Wm. S. Smith, Kalamaqua, Mich., brakeman, not seriously; Wm. Post, leg and hip broken; Fitch D. Adams, Buffalo, leg, hip and leg crushed; Mrs. Fitch and children, slightly bruised; E. D. Bryan, Pontiac, ribs broken; Thomas Wilson, Hamilton, C. W., severely bruised; the head; J. P. Smith, Brighton, N. Y., ribs badly broken—recover doubtful; Hiriam Cook, Cleveland, severe internal injury—recover doubtful; Mr. and Mrs. John Burns, and face badly cut; son lost, leg broken; Columbus Disser, Detroit, and John Anderson, brakeman, slightly injured.

From New York.

New York, March 21.—The Herald's Washington correspondent says that the question of an extra session of Congress is at last decided.

The House has voted a telegraphic resolution which is to be sent to Senator Gwin, of California, to call a special session of Congress.

An authoritative statement is being prepared which will probably be made public to-morrow or Wednesday, giving a detailed account of affairs and the measure which the Post Office Department for the present is to be conducted.

As before stated the Department will not issue certificates to adopt any measure which will interfere with the Postmaster General's power.

As before stated the service is highly probable and do away with many unnecessary expenditures; in fact there will be a general reform of the whole service, which in the opinion of the President and Postmaster General was much needed.

Railroad Accident.

ABYSSINIA, March 21.—The accident between Leavenworth and the Democrat says that a severe fight occurred near Fort Atkinson between 50 men and 50 Wahtchis Indians, under Lieut. Powell, and a large party of Camanches, in which two Camanches were killed and several wounded.

Another fight had occurred between 50 troops under Lieut. Stanley and the Camanches, in which eight of the latter and one of the former were killed.

Capt. Carr with 50 men had left Fort Washita for the seat of war.

It is stated that the Camanches number upwards of 8000. Another battle was anticipated.

Coupes were falling in the interior. The coupes were doing well. Business was quiet.
